I am experiencing some problems in accessing the administrative functions of the Stormhold Wordpress site. Initially my login attempts were met with a message that cookies were not being accepted, even though cookies were not disabled. This has now changed, with an 'invalid password' message appearing when I attempt to log in. The 'Lost Password' link times out before I can do anything, leaving me locked out of the site's backend. I am consulting with Master Nicodemus Novello of the Masonry team to resolve these issues.
